AN ARTIST PROJECT BUILT FOR THE LONG GAME.

21

YEARS IN THE MAKING

For more than two decades, TENER has treated electronic music as a craft rather than a content cycle. Early recognition from Nicky Romero and Protocol Recordings became the signal; years of engineering, songwriting, ghost production and international client work built the foundation. Now the project moves into its debut era with full focus—combining the instincts of a songwriter, the control of an engineer and the ambition of a mainstage artist.

WHY NOW

**A developed sound.
A professional system.
A clear debut chapter.**

SIGNALS THAT TRAVELLED FIRST

PROTOCOL RECORDINGS • 2021

NICKY ROMERO HEARD A DISTINCT IDENTITY.

During a live Demo:Drop review of “Pharaoh,” Romero praised the production and artistic direction, referenced KSHMR, Timmy Trumpet and W&W, and opened a connection toward Dharma Worldwide.

MULTIPLE SKIO TOP 10s

Progressive House • Tech House • Techno

Repeated international finalist and Top-10 placements—proof that the craft translates across briefs without losing its core identity.

NOW

The project receives full focus.

A developed sound, professional production system and clear standard for every release.

A PRECISE HAND. A CINEMATIC INSTINCT.

PRESS-READY EXTENDED BIO

TENER is a German DJ, producer, songwriter and audio engineer whose music lives between euphoric festival emotion and dark, club-focused intensity. Producing since 2005, he combines cinematic songwriting, vocal direction and refined sound design with the technical control of a trained engineer.

Early recognition arrived in 2021 during a Protocol Recordings Demo:Drop, where Nicky Romero praised the production quality and distinct artistic identity of “Pharaoh.” The moment opened a connection toward Dharma Worldwide, while the pandemic paused the project before it could build momentum.

Rather than rushing releases, TENER used the following years to deepen the work: completing professional Audio Engineering training at HOFA College, delivering ghost-production and engineering projects for international clients, and earning multiple international SKIO Top-10 placements across Progressive House, Tech House and Techno.

Now moving into his debut era with full focus, TENER is building a long-term catalogue around emotional storytelling, original vocals and engineered impact—music designed to hold both a mainstage and a dark room.
